

CBS Series Magnetic Separator

From *Recycling Equipment Manufacturing, Inc.*

CROSSBELT MAGNETIC SEPARATOR.

* Shown with optional adjustable support legs, pulley covers.

REM's® model CBS Crossbelt Magnetic Separator is a versatile plate magnet that is supplied with lifting eyes for suspension over REM's® model SC Sorting Conveyor, TRC Transfer Conveyor, or other conveyor units.

INCREASE YOUR PRODUCTIVITY

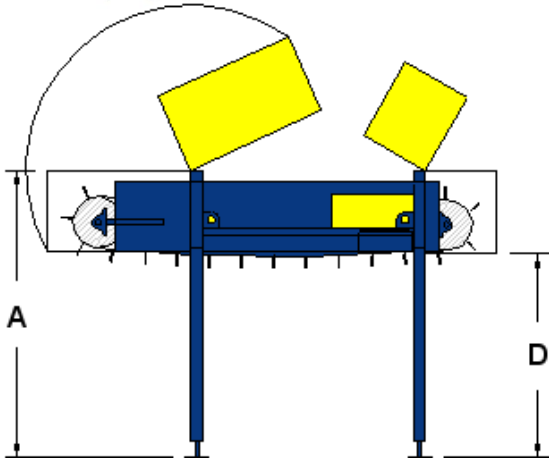

The unique design of our plate magnet in the CBS enables it to have a pulling range of 15" to easily handle the larger cans found in today's recycling markets. Our model CBS will help you achieve a cleaner sort by eliminating picker error and fatigue, and increase your profits. Available in five models, REM's® CBS crossbelt will efficiently handle up to a 60" wide conveyor system. To put our model CBS Crossbelt magnetic separator to work for you, call **1-800-745-4736**

**We recommend a stainless steel section in the conveyor REM® Model SCSS under the crossbelt magnetic separator for superior separating results.

CBS Series Magnetic Separator

A Leader in Recycling Equipment Since 1978

Features:

- Unique plate magnet design
- Stripper magnet for controlled discharge
- Completely enclosed drive package
- 1/2 to 2 HP motor, depending on model

Specifications:

- All-steel unitized construction
- Crowned head and tail pulley
